**Hearing next week
on Bay-Delta plan**

A public hearing on the CALFED Bay-Delta Program has been scheduled for May 7 at the Community Center, 545 Vallombrosa Ave.

An informal question and answer session is scheduled for 6 p.m., with the public hearing to follow at 7 p.m.

CALFED is a cooperative effort by 15 state and federal agencies to address problems in the San Francisco Bay-Sacramento Delta.

Its stated mission is to develop a long-term plan to restore ecosystem health and improve water management for beneficial uses in the Bay-Delta system.

The public hearing is being held to solicit public input on potential solutions to the environmental and water management problems and to review a Draft Programmatic Environmental Impact Report.

A series of 12 hearings are planned at various locations prior to the close of the public comment period.

Summaries of the draft report and other information can be obtained by calling 1 (800) 900-3569 or by visiting the CALFED web site at <http://calfed.ca.gov>.
